

"I have never seen children have so much pride and excitement about their school."

★ Our School ★

We are...

- A small kindergarten through grade four public charter school.
- A school built upon the belief that parents, students, and teachers work together as a community dedicated to common goals:
 - Where we create opportunities for parents to be involved at all levels
 - Where hard work and high standards put students on the path to college and success in life
 - Where respect and kindness are part of the curriculum along with reading, writing, and math

Serving Parents and Elementary Students in a New Way.

★ Our Program ★

- Community Oriented Elementary School
- Unique Environment for Students and Parents
- A New Building Planned for the South End

A New Kind of School – One that provides a sound educational foundation for our youngest students but also considers the needs of our parents and the community.

We Expect Excellence – Our curriculum is extremely challenging and puts kids on a path to college and success in life.

We Require School Uniforms – That reduces classroom disruptions so teachers can teach and parents can focus on education rather than fashion.

We Have a Longer School Day and Year – More learning time for students, but also more convenient and reassuring for parents.

We Have an Active Parent Advisory Board – More opportunities for parents to participate, plus it's a great example for students.

Our Principal, Staff, and Board are Accessible – Parents can get information about their students or the school quickly from the people who know.

And That's Just the Start! Come meet your new community school, learn about our new building, and meet our team.

Currently Enrolling Students for Kindergarten through 2nd Grade.

★ Our Model ★

We believe that all children can meet challenging academic and behavior standards and that good teaching and learning happen when clear, measurable goals are set and achievement is continuously monitored. At ACCS, student success is a responsibility shared by teachers, parents, and the students themselves.

Parent Involvement:

Parents are valued members of our school community and direct stakeholders in a wide range of school activities. Parents have direct access to the principal and the teaching staff. Also, our Parent Advisory Board helps raise additional funds, plans activities for families and students, and communicates with the schools Board of Trustees. A seat on the Board of Trustees is reserved for a parent.

Mr. Neal Currie
Principal

Mr. Currie has over fifteen years of experience with Albany as a teacher, and as a developer, and coordinator of educational, social, cultural and recreational programs for urban students.

I'm interested in participating on the parent advisory board.

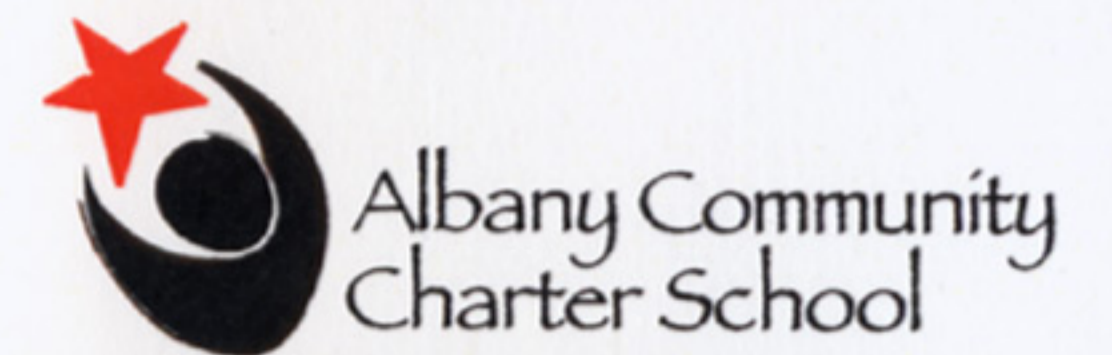

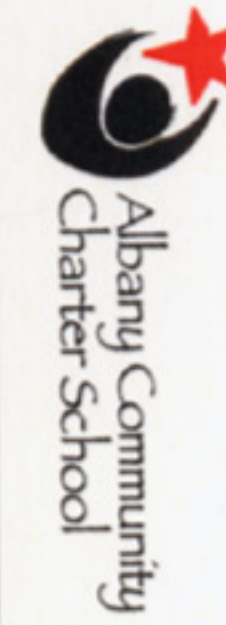

The mission of the Albany Community Charter School (ACCS) is to prepare students to not only meet and exceed state academic requirements, but to ensure that students are on a path to succeed in college and in life. ACCS serves students in the most critical years of their educational lives. A good foundation in the basics (like reading, writing and math) will help students succeed in middle school, high school and beyond – no matter what they choose to do. Additionally, students will learn and live important values like respect, honesty, and self-discipline so they can become active and effective members of the community themselves.
